

Comprehensive Services

- Software Design
- Panel design and construction
- Electrical system design
- Electronic system design
- Electronic repair and troubleshooting
- Engineering support
- Drive application
- Training and startup
- Field support

Industries Served

- Chemical
- Dynamometer Testing
- Extrusion
- Injection and Blow Molding
- Metal Production
- Mining
- Plastics
- Printing
- Processing lines
- Metal forming
- Rubber
- Wire

A 40 HP DC drive panel built as part of an electrical upgrade of a plastic extruder.

Engineering Support -

Improve your operational efficiency

Our mission is to provide value-added engineering support for your drives systems applications. Magnetech provides software solutions for PLC hardware and MMI platforms, including GE, Allen-Bradley, Westinghouse, and Siemens. Past projects have included a wide range of applications:

- AC & DC drives
- PLC software upgrades
- Synchronous field application panels
- Energy management systems, including demand control
- Replacement of relay, static logic and pneumatic control systems with PLCs
- Medium voltage softstarters for induction, synchronous and wound rotor motors

Equipment Affiliations -

Broad experience to meet your specific needs

Magnetech is a systems integrator specializing in retrofitting and rebuilding older equipment. Our product experience includes top brands.

When it's time to upgrade your electrical control, motor, or drive system -
Call the Magnetech Service Pros.
